		<b>Totals for Advanced Certificate</b>	<b>10</b>	<b>10</b>

**Advanced Certificate:** The main goal for the Advanced Certificate in Graphic Design is envisioned to serve as an adjunct to advance the skills of people who have already been working in the field but who need to strengthen, advance or replenish their creative and technical skills in Graphic Design. Participants in the advanced certificate should already have a degree in a related field and will be required to either fulfill the pre-reqs for the courses through their prior coursework, or submit a portfolio for review for any pre-req waivers requested. Students without a prior degree, or with only the GD or Art Foundation Certificate would have to fulfill the AAS requirements. Courses in the Advanced Certificate could be tailored to meet the goals of the individual student. For instance a student who already has significant experience in web but who needs to strengthen their skills in print design, could choose courses that primarily emphasize that medium.

*\*Select courses to create Print, Web, Illustration, or Motion graphics emphasis.*
