

Wetland Areas	Woodland Areas	Prairie (Grassland) Areas	Plants	Comments
X			Iris's	
	X		Wild Geranium	
			Clover	Can handle being 'tromped' on.
			Buffalo Grass	Do Not Plant
	X	X	Columbine	Shady edge, good for humming birds, good for a variety of soils.
		X	Lupine	Likes sandy soils & sunny areas. Good for catipillars (endangered species).
		X	Praire Smoke	Get from a Michigan Source/Nursery. Praire Smoke (short grass) is endangered and likes immensley dry soil.
			Bloodroot	
			Fungus	Keep leaf litter to help maintain fungus. It is interesting for kids to go back to their learning materials to look up the interesting fungus.
X		X	Purple Cone Flower	Clay buster plant.
X		X	Black-eyed Susan	Clay buster plant.
X		X	Gray Cone Flower	Clay buster plant.
