G.S.A.

Topic Of The Week: Sexuality and You

Main Question:

Would you be able to be best friends with someone who did not know your preference?

General Answer:

No, It's part of who we are.

Most of us at the G.S.A. decided that Sexuality is a big part of you. People are very social people and we cannot really "know" anyone unless we know what they like. We also reviewed studies on the human brain concerning reactions to pheromones and had debate on if being GBLT is something you're born with or if we just simply choose to be ostracized and made into second-rate citizens. Some of our members also shared with us stories of coming out and parents reactions.

Our member Drew has been working on a great T-shirt design and many members agree that the slogan of this year's G.S.A. should be "GOT LOVE?" Have a better one.

Challenge if you dare!

We are working on organizing a flea market before it gets to cold if it isn't already.

Your V.P. DeAubry had a suggestion of painting on the Rock. If you are not really from flint, you should know the rock is a landmark that the public has been painting on for years to signify anything they feel necessary to paint on a rock. Such as death memorials, birthdays or shout outs.
