

Congratulations go out to...

DAVID ROACH

David Roach, Support Specialist - Electronics, has been selected as Outstanding Employee of the Month for February 2009

Comments about Dave include:

- ◆ Dave is a product of MCC's Electronics and Electrical program. This background gives him great pride in the program and what students can accomplish. He is committed to the mission of the program. This is illustrated by his efforts with vendors and companies in the area. He strives to get the best values, stretching both the program's budget and student lab fees to the maximum. This has earned the program a reputation with vendors that we expect top quality at the best price.
- ◆ I believe the most important aspect of Dave Roach is his quest for knowledge and new ideas. He is not content to sit on his current knowledge base, but is always looking for ways to invigorate the program. He is always looking to the future and anxious to work with the faculty in developing and finding new niches. This is a great attitude that spreads to all of those in the program - whether it is full-time faculty, part-time faculty or students.
- ◆ With all of Dave's hard work and sacrifice, I feel that it is important that he is recognized. He is always trying to stay one step ahead of the technology curve and he makes sure that students and faculty are with him. This is a great attribute to have, not only for the faculty and staff, but also for the students. These qualities make Dave Roach an excellent candidate for Employee of the Month.

CONGRATULATIONS, DAVE!
