**ETOM Online Certification Course**

Fall 09 Session: October 5 - November 13, 2009 (Blackboard)

The six week online course is designed to provide participants with the experience of being an online student while introducing them to the pedagogical and technical issues of online teaching. Successful participants will be able to set up the design for a general course framework, including an organizational scheme (using BlackBoard CMS) and course management policies. For more information and to enroll online -
