The program in dental hygiene is accredited by the Commission on Dental Accreditation. The commission is a specialized accrediting body recognized by the U.S. Dept. of Education. The program prepares the student to provide preventive dental hygiene care in dental offices, clinics, and educational or health care institutions. Registered Dental Hygienists (RDH) work as part of the dental health team to provide preventive health care for each patient. Responsibilities include oral health screenings, initial treatment appointments and maintenance appointments, nutritional counseling, fluoride, sealant application, and radiographic techniques. H.S. preparation should include biology and chemistry. Courses in physics and geometry are highly recommended.
