New Course

CHEM-120/SCI.-120 Introduction to Forensic Science

A survey of scientific methods of crime analysis. Students will use various wet lab and instrumental techniques to examine evidence such as hair, soil fibers, fingerprints, etc, generally associated with a crime scene.

SCI.-120 was dropped as course prefix and number. CHEM-120 was approved as course prefix and number. Approved as meeting the NTL Natural Technical Laboratory General Education Requirement designation.

Action/Effective Date

Approved

Winter 2009

New Program

Auto Body Repair & Painting Certificate

This program provides the necessary skills for students entering the Auto Body Repair industry. All courses required for the Certificate are also required for the Auto Body Repair and Painting AAS. Graduates will have developed entry level skills that will prepare them for a position in the industry.

Action/Effective Date

Approved

Winter 2009

Program Revision

Air Conditioning, Heating and Refrigeration Certificate

This revision is a realignment of the current courses we now offer. ACHR 145 will be moved from the elective group to the core classes. We have also dropped our English requirement and added more depth and flexibility to the related course selection.

Action/Effective Date

Approved

Fall 2008

Cosmetology, Certificate of Achievement

ENGL-101 and BUSN-104 deleted from program. These courses will be taken if the student elects to take the Hair Care/Salon Management Associates Degree. The cosmetology courses will give the student 69.5 credits, which is more than double the amount of credits required to receive a Certificate of Achievement (30) at Mott.

Approved

Fall 2008

Medical Practice Management Certificate

Entry requirements: This program from inception had entry requirements but the entry statement dropped off the curriculum in the revision of 2001. This happened unintentionally. The oversight came to light with the publication of the latest catalog. This revision restates entry requirements. Program entry requirements; Keyboarding speed of 45 wpm and English 101 recommendation on the College Placement Test. Eligibility meets minimal benchmarks necessary for satisfactory performance on pre-employment screening.

Postponed

May 30, 2008

Radiologic Technology Program/Radiography Preparation

Radiology Technology Program at Hurley Medical Center will no longer accept high school Physical Science, Physics, or chemistry as an entrance requirement.

Approved
Spring 2008
