BUSN-294 Business Capstone

This course centers on the integration and application of acquired knowledge to real world business problems. Students will work in cross-functional groups (accounting, management, marketing, etc.) and utilize problem solving principles and techniques to evaluate business case studies. Students will explore employment and academic opportunities; development of communication, teamwork, leadership and analytical skills vital to career success. This course is intended for students who have taken several business courses and will soon complete their degree.

New prerequisite language: 45 or more credits, 12 of which must be Business related courses.

Approved as Amended
Winter 2013

Policy Revision**Academic Affairs Subcommittee Report**

This item was sent back to the Academic Affairs Subcommittee with the charge to further discuss late registration and it's relation to the Add/Drop period, research the possibility of shortening the Add/Drop period and look into Financial Aid and whether or not it contributes to the need for late registration.
