Associate Degree Revision

Accounting - Applied Science Degree

The revision is to add a program requirement class Accounting Reports and to take out MATH-130 for those students that are taking Option 1 which is the occupational option. These students are typically not going to transfer and will graduate and get a job. In Option 2, it is inherent that they will take MATH-130 due to the additional Math requirements.

Business Health Services Management

Replace ACCT-101 with ACCT-201. Employers have expressed a preference for ACCT-201 and this course transfers. Most schools accept Principles of Accounting, fewer accept the Applied Accounting.

Information

Health Science Curricular Guide Revision

The Division of Health Sciences has agreed to revise all program curricular guides as listed above to reflect the fact that students in any of these division programs may take ENGL 101 or ENGL 103 and ENGL 102 or ENGL 104 to meet graduation requirements for the respective Associate Degree.

PHOT-190 Computer Photo Imaging

Change seat max from 15 to 20. The seat limit was erroneously changed to 15 last year when other studio courses were revised. However, since this is a computer lab-based course and the Photo computer lab has 20 stations, it should have been set at 20.
