

Special Edition: Coronavirus Communication 68

June 24, 2020

Good Evening:

I hope you plan on attending the All-Employee College Meeting tomorrow from 3 -5 p.m. During the meeting, you will hear more decisions that have been made around the phased reopening plan, as well as budgetary measures being taken to ensure MCC remains fiscally sound. In reviewing the questions submitted by today's deadline, I see that you are also thinking about how MCC will reopen. Thank you for the questions and I look forward to a great discussion tomorrow.

This morning I had the opportunity to be a guest during a Facilities reopening planning meeting with H2A, our consultants for this project. The topic discussed today was thermal temperature scanners at the entrances of our buildings. I appreciate the due diligence of the group selected to support all of our purchasing efforts during this critical period.

This afternoon I met with the Board of Trustees Finance/Audit and Personnel committees in order to review with them resolutions and topics that will be presented during Monday's Board meeting. The resolutions and other important topics presented to the BOT will be shared with you tomorrow during the All-Employee College Meeting.

While I was attending a state meeting this afternoon, I received word that the State of Michigan abruptly cancelled the COVID-19 testing contract with the vendor NDS this afternoon. NDS had been selected to continue testing in Lot S following the expiration of the Kroger contract this Friday. State of Michigan personnel are now looking for another partner to continue testing services throughout Michigan, which includes our site. As of now, COVID-19 testing will conclude on our campus as of Friday.

Enjoy the cooler weather!

Looking Forward,

Dr. Beverly
