

## Special Edition: Coronavirus Communication 69

June 25, 2020

Good Evening:

Thanks go out to Director of Networking, Randy Schapel and Academic Success Specialist, Katie Kiacz for a really fun and engaging All-Employee College Meeting. I really enjoyed learning more about MCC by playing the video guessing game. I missed recognizing one video picture which knocked my score down to the "Not bad, you know Mott!" category. I will attach the video for today's meeting to the Communication after Media Services completes the project.

There were many informative presentations given. If you did not attend, I encourage you to watch the recorded video. I do want to share that MCC will be moving into Phase 2 as of July 6 and Phase 3 as of August 3. We hope to move to Phase 4 on August 24. All of these movements in phasing are subject to CDC directives and/or Governor's Executive Orders/Directives.

This morning I attended the Metro Community Development Board of Directors meeting. We spent the early morning reviewing and approving the proposed 2020-2021 Metro Community Development Board budget. I have served on Metro's Board of Directors since I arrived in 2014 and found the organization to be an effective partner for MCC in efforts that create sustained community change. I am looking forward to increased collaborations when Metro moves to the new location at 1174 Robert T. Longway Blvd.

This morning and afternoon I had several back-to-back meetings that included continuing work on developing the MCC Reopening Training Module that has been discussed as a mandatory part of the MCC Reopening Plan. You will receive an email when the module debuts on July 6. I have worked with Chief Financial and Administrative Officer Larry Gawthrop to develop a CARES Act Institutional Funding work plan. I planned for the upcoming Executive Cabinet Retreat in August.

I hope you got out and enjoyed the day because tomorrow is supposed to be stormy. Have a wonderful evening.

Looking Forward,

Dr. Beverly
