With over 20 years of higher education experience, I want to emphasize the benefit of students that plan their college and educational needs. Every student should take advantage of the Spring semester to examine their academic needs for the next full year and make decisions regarding their attendance and class selection for the three semesters that have open registration. I would recommend each MCC student consider the following:

♦ With a MCC Counselor or by yourself, review your program of study. Determine which classes you have left to complete and create a class rotation or schedule for each semester that you plan to attend to complete your MCC degree.

♦ Make sure you look at when a class is usually offered, especially if it is only offered limited times of the year.

♦ Make sure if the class requires a pre-requisite you have that planned into your class rotation.

♦ If your Fall and Winter semesters will be difficult or requires a heavy credit hour load, consider taking at least one class during this Spring and/or Summer semester to make future semesters more manageable. By taking a Spring and/or Summer class you can reduce your Fall and Winter requirements.

♦ Take classes at the NTC (Clio) Branch when possible. It saves time and money in travel expenses. Student enrollment at NTC is the best way to expand future course offerings.

♦ Make sure you file your 2013-14 FAFSA (Free Application for Federal Student Aid) as soon as you have your 2012 income information available. Completing the FAFSA form early is your best chance to maximize your financial aid award and limit any obstacles.

I hope to see you continue your success at MCC and the Northern Tier Center. Thank you for making our site a success in the community. If you need any assistance or have questions, please stop in and see me or my staff.

Hello,

I am Officer John F. Keahey; I've been a police officer for nearly 26 years and retired from the Flint Police Department in May of 2009. During my career I've worked in many different areas of Law Enforcement including: Special Operations Bureau, FBI Safe Streets Task Force, Investigations (Internal Affairs), and Interim Chief of Police.

After a VERY SHORT retirement I started working for Mott Public Safety in September of 2009. I've spent the last few years working at Main Campus, Work Force Development Center and with high school students as the School Resource Officer for Mott Middle College and consider myself very fortunate to have met so many wonderful people the past few years.

Migel Gatica is a certified police officer with 24 years of Law Enforcement experience. He retired from the Flint Police Department in June 2009.

Officer Gatica has been with the Mott Community College since September 2010 where he was assigned to work at the Southern Lakes Branch Center. He was assigned to work at the Northern Tier Center winter semester 2012.

Their work schedules are (Monday-Friday) 7:30 am-3:30 pm and 3:00 pm - 9:30 pm and his office is located in Room 109 across the hall of the Computer Lab.

If you have any questions or issues please, feel free to contact us at (810) 232-4339 or Room 109.

Info describes a telephone scam in which the caller already has the credit card # but does not have the 3 digit security code on the back.

The 3 digit security code confirms one's possession of the particular card and is generally requested when the card owner is making a purchase remotely. Credit card companies would not ask for this number.

CREDIT CARD "SCAM"

Following is an example of a telephone credit card scam.

Person calling says—'This is (name), and I'm calling for the Security and Fraud Department at VISA. My Badge number is 12460, your card has been flagged for an unusual purchase pattern, and I'm calling to verify. This would be on your VISA card which was issued by (name of bank). Did you purchase an Anti-Telemarketing Device for $497.99 from a marketing company based in Arizona? When you say 'No', the caller continues with, 'Then we will be issuing a credit to your account. This is a company we have been watching and the charges range from $297 to $497, just under the $500 purchase pattern that flags most cards. Before your next statement, the credit will be sent to (give you, your address), is that correct?' You say 'yes'.

The caller then says, 'I need to verify you are in possession of your card'. He'll ask you to 'turn your card over and look for some numbers'. There are 7 numbers, the first 4 are part of your card number, the last 3 are the Security Numbers that verify you are the possessor of the card. These are the numbers you sometime use to make Internet purchases to prove you have the card. The caller will ask you to read the last 3 numbers to him. After you tell the caller the 3 numbers, he’ll say, 'That is correct, I just needed to verify that the card has not been lost or stolen, and that you still have your card. Do you have any other questions?

FOR YOUR SECURITY:

▲ Do not give out any credit card information over the phone!

▲ Legitimate credit card company representatives would not ask for the security code numbers on the back of the card ... They all-ready have them.

▲ If there is a breach in the security of your card and the credit card company contact you, they would only inquire as to the location and amount of a purchase.
